Summary

Have you ever wanted to go in search of mysteries with your friends?...

Have you ever wanted to discover, study, fight, and capture monsters?...

Well, now you can, gather up to 3 friends and dont forget your dog, the mystery is waiting for you... just be carefull.

Game Features

- **Multiplayer, teamwork based-gameplay:** You are a member of a group, the game wants you to act like it, and you must rely on your teammates if you want to win. There are various roles that anybody can acquire, and team role composition is important. Be sure to think very carefully what items would you bring to monster hunting too.
- **Intense puzzles:** The scenarios are intended to be a challenge for the group, maybe you have the answer for first riddle?... next time you won't be so lucky...
- **Casual:** You can play any time you want, in 5 to 15 minutes matches. You can focus on the things you DO want to do, and just skip the ones that you find boring... just be sure somebody's got your back when you go exploring
- **Action-based combat:** You can kill monsters... this is not a 90's cartoon, and be sure monsters can kill you too.
